

Posters Session I

Paper No.	Authors, Title
53	Arkoprovo Paul, Jeffrey Valla, Megha Sharda and Nandini C. Singh. Music as a scaffold to facilitate social communication in children with ASC: differential neuroactivation in sung vs. spoken speech, applied and evaluated in a novel therapeutic setting
37	Abhijeet Patra, Shiza Rahman and Bhoomika Kar. Task switching in bilinguals and multilinguals
39	Shruti Goyal and V. S. Chandrasekhar Pammi. Reward positivity and Framing in Intertemporal Choice: an ERP Investigation
11	Nirav Porwal, Narayanan Srinivasan, Luca Simione and Antonino Raffone. Modelling the Emotional Influences on Attentional Blink
101	Shailaja Mekala, Suvarna Alladi, Divyaraj Gollahalli, Gowri Iyer, Phaneendra Rage, Arunkumar Pullela and Subhash Kaul. Social Cognition and frontal behavior in the Cultural Context of Indian Healthy and Neurologically Diseased population
75	Abhishek Sahai, V. S. Chandrasekhar Pammi and Narayanan Srinivasan. Interaction of Framing and Emotion in Intertemporal Choice
13	Nandini Jayachandran and Dharmangadan Balakrishnan. Executive function deficits in Developmental dyscalculia: a comparison with Developmental dyslexia and normal controls.
94	Mounika Mesa, Anuj Shukla and S. Bapi Raju. Application of Eye Movement Saccades to Build a Brain Computer Interface
65	Meera Sunny, Neeraj Kumar and Jaison Manjaly. Attentional consequences of the automatic monitoring of visual outcomes of actions
3	Krishna Prasad Miyapuram and Manisha Chawla. Evolution of chunking patterns
22	Rolla Das and Naresh Keerthi. The malady of interpreters a cognitive remedy?
31	Yagyima Nehabala and Bhoomika Kar. Development of Affective Control: Evidence Based on the Face-word Stroop Task
38	V. S. Chandrasekhar Pammi, Pavankumar. B. Kamble, Lagnajita Chatterjee and Narayanan Srinivasan. Scope of attention modulates loss aversion: a behavioural economic investigation
54	Soumya Ghosh. Roles of Expressions in Construing Meaning at the Level of Discourse: A Study of Nominals and Demonstratives in Bengali.
55	Chandra Pratap Daksha and V. S. Chandrasekhar Pammi. Anxiety and Temporal Discounting: A behavioural Economic Investigation
67	Kapil Chaudhary, S Senthil Kumaran, Sarat Chandra and Manjari Tripathi. Semantic and Syntactic language processing in temporal lobe epilepsy (TLE) revealed by fMRI
68	Sunita Gudwani, S. Senthil Kumaran and Rajesh Sagar. Is sentence comprehension in adult bilinguals a conscious switching?

Posters Session I

97	Smita Choudhary, Surampadi Bapi and Joby Joseph. Combining Gated Dipole with Reinforcement Learning: Framework for Unitary Account of Reward-and-Punishment Based Learning.
98	Priyanka Srivastava, Saskia Jaarsveld and Thomas Lachmann. Are an ability to shift attention and creative cognition related?
43	Bhawna, Shalini Mittal, Mithilesh Tiwari, Yogesh Kumar Arya and Tushar Singh. Affect and time perception
50	Sarika Cherodath and Nandini Chatterjee Singh. On the road to being a simultaneous biliterate: cortical circuits in children learning to read two distinct writing systems
62	Tony Thomas and Meera M. Sunny. Hand proximity attenuates attention capture by a feature singleton
90	Srinivasa Rao Bheemani and Bapi Raju Surampudi. Is Implicit Sequence Learning impaired in Deaf Children with Cochlear Implants?
7	Ashum Gupta. Bilingual Language Processing: Implications for Brain Reorganization
17	Sushma Kumari and Tushar Singh. Affective influences on prospective memory

Poster Session II

Paper No.	Authors, Title
44	Anvita Gopal, Anuj Shukla and S. Bapiraju. A Novel Emotional Oddball Paradigm to Study the Influence of Emotions on Time Perception.
105	Ramesh Mishra and Seema Prasad. Interference and attention: What do bilinguals tell us?
103	Amita Chatterjee, Srimoyi Bhattacharya and Mihir Chakraborti. A Cognitive Appraisal of the Psychology of Vagueness in Across languages
16	Ganesh S. Birajdar and V. S. Chandrasekhar Pammi. Accounting for trends of behavior in repeated prisoners dilemma: A regret-driven learning model
61	Yogesh Kumar Arya, Tushar Singh, Mithilesh Kumar Tiwari and Shalini Mittal. Field dependence-independence, emotional arousal and eyewitness memory accuracy
41	Brajesh Priyadarshi, Navnit Kumar and Sweta Uttakalika Sah. Is there Similar Decline in Visual and Spatial domains of Visuo-spatial Working Memory with aging?
57	Varadhan Skm, Arnab Moitro and Pratik Mutha. Effect of visual feedback on coordination of grip force and load force in prismatic precision grip
60	Abhilasha Srivastava and Narayanan Srinivasan. Neural mechanisms of verb processing: An ERP study with locative alternations.
92	Akshay Rao, Binoy V. V. and Anindhya Sinha. Cube vision: Can blindfolded Rubik's cubing provide insights into the formation of mental imagery and its application to problem solving?
96	Leander Rodrigues, Hemalatha Ramachandran and Aninha Lobo. The effect of task load and distraction on discrimination.
24	Tushar Singh and Yogesh Kumar Arya. Effect of instructionally induced affective arousal on time perception
74	Neelakanteswar Reddy Nagireddy and Jaison Manjaly. Is there such a thing as "Sense of agency"?
58	Palle Narayana and Joby Joseph. Validating measures of complexity of connectivity of brain using a grasshopper model.
73	Hari Narayanan. Embodiment and Consilience
87	Juhi Kidwai, Saryu Sharma and Jayashree Shanbal. Learning from Written Context: Cognitive Linguistic Perspective.
2	Krishna Prasad Miyapuram and Manisha Chawla. Natural Language Typing Frequencies
10	M K Unnikrishnan. Koinophilia and its exaptation: A key trigger to cognitive development ?

Poster Session II

21	Niyati Mishra, Vamshi Velagapuri and Kavita Vemuri. Visuo-spatial recall and reproduction of geometrical shapes and math equations as a function of presentation style static, block and animation
32	H R Meera. Vyangya and Its Implications on Contemporary Studies of Non-literal Usage of Language
93	Neeraj Kumar and Jaison A. Manjaly. Role of divided attention on motor adaptation with/without feedback based error correction
30	Sujith Thomas and Harish Karnick. The Nature Of Word Generalization In Learning Novel Concepts
46	Shalini Mahadev and Joby Joseph. A paradigm to study expectation violation using a grasshopper model (Hieroglyphus banian).
64	Dr. Mohit Saxena, Madhuri Behari, S. Senthil Kumaran, Vaishna Narang and Vinay Goyal. Imaging Speech Dysfunction in Parkinsonism
82	Mukta Watve, Binoy VV and Anindya Sinha. Changing personalities? Are behavioural syndromes modified during metamorphosis in the Indian common toad?
